Environmental Ethics. The field of environmental ethics concerns human beings’ ethical relationship with the natural environment. While numerous philosophers have written on this topic throughout history, environmental ethics only developed into a specific philosophical discipline in the 1970s. This emergence was no doubt due to the increasing awareness in the 1960s of the effects that ...

Religion and Politics. The relation between religion and politics continues to be an important theme in political philosophy, despite the emergent consensus (both among political theorists and in practical political contexts, such as the United Nations) on the right to freedom of conscience and on the need for some sort of separation between church and state.
