**Go West**-Jeremy Sparks 2017-02-07 "Readers looking for inspiration (or just a great story) will discover a wild ride that proves just how twisty some paths to Christ can be." - Publisher's Weekly Many of us would say it takes guts and a little bit of crazy to step toe-to-toe with a powerful, 1,700 pound bull. For Hall-of-Fame bullfighter, Jeremy Sparks, it took faith. Sparks' remarkable and illustrious journey began at a young age when he received a God-given calling to become a professional bullfighter. Soon after accepting a college scholarship for rodeo, he suffered a near-fatal electrocution, which, but for his faith in God, would have ruined his dream. After three years of training under a world champion, he was accepted into the elite Professional Rodeo Cowboys Association, and spent years tussling with raging bulls until God, once again, showed him another path. While the terrorist attack on September 11th rocked the country, Sparks saw it as an invitation to serve. He enlisted just weeks after the attack, and earned his commission as a second lieutenant in the US Air Force and an endorsement from the Pentagon as the "only professional bullfighter in the history of the USAF." Once a small town kid from Arkansas, now a Hall-of-Fame rodeo icon, Sparks is sharing his stories of strength and service. With God at the center of this fascinating story, Go West highlights the 10 Biblical principles that Sparks learned, experienced, and lived by as a professional bull fighter, officer in the armed forces, and follower of Jesus Christ.

**Paper Trails**-Cameron Blevins 2021-03-04 A groundbreaking history of how the US Post made the nineteenth-century American West. There were five times as many post offices in the United States in 1899 than there are McDonald's restaurants today. During an era of supposedly limited federal government, the United States operated the most expansive national postal system in the world. In this cutting-edge interpretation of the late nineteenth-century United States, Cameron Blevins argues that the US Post wove together two of the era's defining projects: western expansion and the growth of state power. Between the 1860s and the early 1900s, the western United States underwent a truly dramatic reorganization of people, land, capital, and resources. It had taken Anglo-Americans the better part of two hundred years to occupy the eastern half of the continent, yet they occupied the West within a single generation. As millions of settlers moved into the region, they relied on letters and newspapers, magazines and pamphlets, petitions and money orders to stay connected to the wider world. Paper Trails maps the spread of the US Post using a dataset of more than 100,000 post offices, revealing a new picture of the federal government in the West. The western postal network bore little resemblance to the civil service bureaucracies typically associated with government institutions. Instead, the

US Post grafted public mail service onto private businesses, contracting with stagecoach companies to carry the mail and paying local merchants to distribute letters from their stores. These arrangements allowed the US Post to rapidly spin out a vast and ephemeral web of postal infrastructure to thousands of distant places. The postal network's sprawling geography and localized operations forces a reconsideration of the American state, its history, and the ways in which it exercised power.

We were deliciously delirious.

**Go West, Young Women!**-Hilary Hallett 2013-01-15 In the early part of the twentieth century, migrants made their way from rural homes to cities in record numbers and many traveled west. Los Angeles became a destination. Women flocked to the growing town to join the film industry as workers and spectators, creating a "New Woman." Their efforts transformed filmmaking from a marginal business to a cosmopolitan, glamorous, and bohemian one. By 1920, Los Angeles had become the only western city where women outnumbered men. In *Go West, Young Women*, Hilary A. Hallett explores these relatively unknown new western women and their role in the development of Los Angeles and the nascent film industry. From Mary Pickford's rise to become perhaps the most powerful woman of her age, to the racist moral panics of the post-World War I years that culminated in Hollywood's first sex scandal, Hallett describes how the path through early Hollywood presaged the struggles over modern gender roles that animated the century to come.

Woman" Georgie Abel gives us the fresh, beatnik-dirtbag side of poetry, and leaves the pretentiousness to PhD poets. The accessibility of her lines have the excitement of a brand new adventure. Each poem feels like it was written for the reader, with an endearing voice, that friend who listens to you for hours, and you confide your deepest thoughts to. This is a book to sneak into the top your pack for that wilderness adventure to read to a lover, or one to keep close to your nightstand to remind you of the important things in life. A new poet has arrived in town, and her name is Georgie Abel." -Luke Mehall, Author of American Climber

**Why Did Paul Go West?**-Doron Mendels 2013-05-23 In his new book Doron Mendels addresses the topic of the authority of texts and their transmission, as well as different strategies of narration in ancient texts. Mendels provides extensive treatment of issues such as linearity, temporality and simultaneity of texts, whilst working to examine four core themes. First, the narrator and his strategies in the historiography of the Hellenistic period. Secondly, Jewish Historical thought in the Hellenistic period and beyond. Thirdly, issues of Hellenization in Palestine - power, honour, gifting, etiquette and sovereignty and their presentation in the main narrative of the Hasmonean period. Finally Mendels gives attention to the 'split' in the Jewish diaspora between east and west, as exemplified from a Christian point of view, it is this that unites these themes into a sustained examination of Jewish

**Go West Mr. President**-Michael F. Blake 2020-06-01 In 1903, Theodore Roosevelt planned a tour of the mid-West and Western states. It was dubbed the “Great Loop Tour,” being careful not to call it a campaign tour, although he intended to seek re-election the following year. Theodore was adamant that his speeches be devoid of any partisan rhetoric, nor would he meet solely with Republican office holders in the various cities and towns he planned to

visit. He would happily shake hands with a Democratic mayor or Senator just as he would a Republican. Theodore's speeches, which he wrote himself, covered subjects of good citizenship, a square deal for every man, a strong navy, and the positive aspects of the recent irrigation bill he signed into law. Then there were his speeches relating to conservation of the land, forests, rivers, and wildlife. Nowhere did these subjects become more important to him than when he visited Yellowstone, the Grand Canyon and Yosemite. While he was still three years away from having the law that would knight him as the "Conservation President," Theodore was already making his mark on preserving the country's resources.

So, forget mini-England. Forget Benidorm and Torremolinos. Next time you arrive in Spain, don't go south, Go West! You won't regret it! Andy
