## The God Delusion by Richard Dawkins - Goodreads

Fallacious Reasoning: "The God Delusion" By Richard Dawkins “Science can chip away at agnosticism, in a way that Huxley bent over backwards to deny for the special of God. I am arguing that, notwithstanding the polite abstinence of Huxley, Gould and many others, the God question is not in principle and forever outside the remit of science.

## Creationism - Wikipedia

Creationism is the religious belief that nature, and aspects such as the universe, Earth, life, and humans, originated with supernatural acts of divine creation.. In its broadest sense, creationism includes a continuum of religious views, which vary in their acceptance or rejection of scientific explanations such as evolution that describe the origin and development of natural phenomena.

## The Fine-Tuning Argument for God | Philosophy Talk

Probably the most persuasive argument for the existence of God -- I don't mean to philosophers and logicians, but to ordinary people -- goes something like this: All of this -- that is, a world with life, intelligence, beauty, humans, morality, etc., -- couldn't have come about by accident. It must be due to some intelligent, powerful Being -- and that's what God is.
